

Our philosophy is that a happy student is ready to learn

Our staff team are second to none.
2006 and a future Director of CAST

CAST factsheet

CAST Is a social enterprise with roots in education and community

A community fishing project since 2001 and established as a schools project in 2003.

Working with schools in Notts and Derbys.

Learning is delivered through well resourced and planned practical projects

Land based studies is our subject area

85% of students achieve a BTEC Diploma

Our contact doesn't end at 16. Chainsaw training and qualifications post 16

Our students see a job through from planning to completion.

Our skills building engages students leaving a tangible legacy they can be proud of.

We work with nature. Building nest box trails and feed stations.

Carrying out habitat improvement and development

Work experience supports applications to College and makes structures for students to take home.

Creating gardens for schools provides skills and resource for learning

CAST has strong links with communities, creating community resources.

A hub for education in the park, our future classrooms and fully accessible fishing lakes

Developing work on the Park. Out of school workshops are part of our work.

We work extensively in Newstead Abbey Park and the local Parish

Developing a work ethic to
prepare our students for life .
