

Job opportunities at CAST:

- Project Tutor, Full-Time/Part –Time, with Land Based experience

**There may be a possibility for flexibility with Full-Time or Part-Time roles for the right candidate.*

CAST Angling Projects is a registered Community Interest Company (CIC) that provides an innovative model for education (Key Stage 3 & 4 in the main). We work with schools and other organisations to ensure our services are dynamic and ambitious, young person-centred and allow each and every student the chance to positively achieve. Whilst we pride ourselves in the academic opportunities we plan and deliver to young people, we offer so much more in terms of engagement in practical, outdoor education and teamwork. In addition to the range of Level 1 and 2 BTEC qualifications, we also deliver a number of charitable, out of school initiatives to help support charities, our partners and the communities we serve.

We are a friendly and supportive team, passionate about our delivery, our students and the communities in which we work. We are looking for the right person to share this ethos with and bring excitement and initiative as well as skills and knowledge, to our already successful model.

You will have an enthusiasm for working with young people from a range of both social and educational backgrounds for example: Attendance issues, child protection, non-mainstream education, Looked after Children, Special Educational Needs, Children without a school place.

Practical, outdoor project work and delivery of our BTEC qualifications is a key element of our work. You will have skills and experience in an area of land-based work such as land management, countryside management, landscaping, conservation, fisheries, or other. Your ability to engage our students in planning and implementing practical projects and contributing to the ongoing development of CAST will be key to you supporting our success and changing of lives. You will be committed to safeguarding

young people and ensuring this remains priority throughout our work. You will be relaxed, tolerant, patient, have a good sense of humour and be a team player who feels they can contribute to the spirit, delivery and development of the team whilst maintaining a happy and enjoyable working atmosphere for students and staff alike.

We want all our team members to strive for excellence. You will value the importance of continuing professional development and we will be committed to ensuring you are fully supported to achieve this through a range of training options.

Our work includes:

- Delivery of BTEC qualifications in Land Based studies
- Landscaping projects for country parks, communities and schools
- Land management, conservation projects and habitat development
- Constructing bird feeder stations, nest boxes, animal homes etc:
- Angling workshops for schools and various agencies
- Improving community environmental spaces and facilities
- Environmental Improvements and garden developments for schools
- Fostering a love of the countryside and wildlife, and of course
- Angling

If you feel you are suitably skilled and share our passion and enthusiasm for helping young people achieve their educational potential, then we would love to hear from you.

To request an application pack, arrange to come for an informal chat and to come and meet the CAST Team, please email mick@castap.org.uk or give us a call on 01623 723431. Deadline 5.00pm Friday 26th February 2021.
